

Powering Potential

Energizing Learners in Developing Countries

“*Having access to a computer has really changed my life and opened the doors of opportunity so my dream of becoming a doctor will come true.*

- Sofia Omar, student

Impact since 2006

- * 103 projects in 34 schools
- * 500% increase in students transferring to our pilot school
- * 35,000 students impacted
- * 3,000 students enrolled in technology courses

And now...

Announcing Powering Potential 2.0!

Introducing our largest project ever!

Karatu District Plan for Tanzania

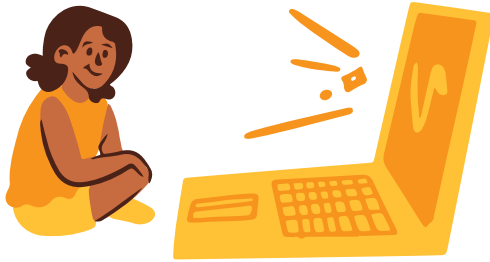

12,000+ students * 23 schools over 3 years * 460 computers

YOU can bring the light of knowledge to 12,000 students by partnering with us in this transformational project!

How to Help

3-Year Plan

Year 1
7 schools = \$276,000

Year 2
8 schools = \$304,000

Year 3
8 schools = \$314,000

Grand Total
23 schools = \$894,000

- * **\$5,000** buys 7 devices for the offline digital educational content
- * **\$1,000** buys 2 projectors
- * **\$500** buys 1 license for the Tanzanian digitized school curriculum
- * **\$200** buys 1 complete computer unit
- * **\$100** buys 1 solar panel

Segal Family Foundation is contributing \$90,000 the 1st year.

Join Powering Potential and Segal Family Foundation to unlock the world of knowledge for 12,000+ eager learners.

DONATE HERE

“

It is unhidden truth that Powering Potential is having unmeasurable impact to youth and all the people in rural areas, as they are going to be exposed to the world of technology where they could meet plenty of social, economic, academic and political opportunities.

- Elitumaini Rweyemamu, student
